5 CONDITIONS OF SUCCESSFUL COLLECTIVE IMPACT

- Common Agenda
- Backbone Support Organization
- Shared Measurement System
- Continuous Communication
- Mutually Reinforcing Activities
COMBINED FUNDING

JOINT PROGRESS REPORT

SUMMARY

FY 2018 - FY 2019
Aligning for Impact
ALIGNMENT FOR
IMPACT CONFERENCE
The Value and Importance of Our Public-Private Partnership
PURPOSE

• Eliminate duplication of time and effort

• Simplify application and funding process for agencies

• Make better strategic investment decisions in a climate of tight resources

• Coordinate program monitoring and evaluation

• Develop effective communication channels across multiple communities
FUNDING

• An accountable system to separate public and private funding
  
  • Montgomery County public tax dollars
  
  • United Way private donor campaign dollars
DESIRED RESULTS

• A positive change in thinking about working together as a community

• Prevent and eliminate health and human service problems that have plausible solutions

• Maintain an effective and efficient safety net of services

• Drive systemic change to achieve community level impact

• Leverage the power of diversity and equity to engage a broader community

• Positive outcomes for individuals and families
WHAT'S NEXT?

• A public, private, philanthropic partnership

• Focused, measured, prioritized and collaborative strategic community level investments

• Build capacity for community-based nonprofit organization

• Restore communities and change lives

• Scale Collective Impact to make a substantial difference
Aligning for Impact

Life Expectancy

Life Expectancy by Race and Sex
Montgomery County, 2016-2017

- Montgomery: 74.0
- White: 74.9
- Black: 70.0
- Male: 70.7
- White Male: 71.6
- Black Male: 65.5
- Female: 77.3
- White Female: 78.0
- Black Female: 74.2

Source: Ohio Death Certificates, Ohio Department of Health

---

KEY FINDINGS

- Black men have the lowest life expectancy (65.5 years).
- Life expectancy dropped 2.1 years since 2012-2013.
- The years of potential life lost increased more than 21,000 years compared to 2013-2013.
Geographic Snapshots

A person's built environment, the community where they live and work, impacts their overall health and quality of life. Individuals living in poverty may have more adverse health outcomes than other individuals. Issues such as poor air quality, childhood lead exposure, a high concentration of tobacco and alcohol retail locations, high crime rates and limited access to healthy food disproportionately affect communities in poverty.

“Your longevity and health are more determined by your zip code than they are by your genetic code.”

- Tom Frieden, M.D., M.P.H., former Director of the CDC
While presenting data at the county-level provides an overall picture of the health of the residents of Montgomery County, there is a benefit to understanding the population and health characteristics of smaller areas of the county so that place-based programs and policies can be developed.

For the geographic snapshots, Montgomery county was divided into 13 areas which include both cities and townships. Each area is comprised of individual census tracts that have similar population, economic, and educational attainment characteristics.

The following section presents information pertaining to population demographics, income and poverty, education, employment, housing, food access, birth outcomes, mental and behavioral health, and chronic disease for the 13 selected areas of Montgomery County.
Using an “Equity Lens”

Montgomery County’s White population enjoys a longer lifespan, has more economic stability, experiences less burden of preventable disease and violence, and benefits from better access to healthcare.
Modifiable Factors Influencing Health

- Physical environment: 40%
- Clinical care: 20%
- Behaviors: 30%
- SDOH: 10%

Public Health
Prevent. Promote. Protect.
Dayton & Montgomery County

NOW, BE IT THEREFORE RESOLVED, that the Board of Health of Public Health - Dayton & Montgomery County does hereby adopt a Health Equity in All Policies approach to improve population health.

Public Health issues a call to action to all community stakeholders to incorporate health and equity considerations into decision-making on policies, programs and services.
✓ Health Equity in All Policies
  Using an Equity Lens

✓ Adopt a “Health Lens Analysis Tool”

✓ Establish common definitions / terminology for SDOH
✓ Promote alignment across sectors
✓ Apply principles of collective impact
✓ Focus on the health equity
✓ Implement policy, systems, and environmental changes
Five Conditions of Collective Impact

01 A Common Agenda
02 Shared Measurement System
03 Mutually Reinforcing Activities
04 Continuous Communication
05 Backbone Support Organization
Bringing About Change Through the Power of Collective Impact
This image depicts **EQUALITY**. All individuals are being treated equally with the same supports. It challenges

This image depicts **EQUITY**. The people are being treated equitably. It demonstrates that

This image depicts **LIBERATION**. The barriers have been removed and supports are no longer
Transforming innovative behavioral health leadership and partnerships to promote a healthy region

VISION
An inclusive world where optimal brain health equity ensures no one suffers in silence.
