The Dayton Council on Health Equity is Montgomery County’s Local Office of Minority Health. The program’s goal is to eliminate disparities in health outcomes in minority populations and to advance health equity. A community-based Advisory Council provides strategic direction and engages the community to address factors that contribute to poor health outcomes. These include behavior and lifestyle choices, access to healthcare, poverty, education level, cultural awareness, language barriers, and other socioeconomic factors.

1320 East Fifth Street,
Dayton, Ohio 45402
Monday - Friday: 8 am - 4:30 pm

Emergency Preparedness
225-4483
The Emergency Preparedness Program is tasked with preparing community partners and the public to respond to adverse incidents that affect the public’s health. Activities are planned in cooperation with the public, healthcare and safety organizations in Montgomery and surrounding counties to ensure the West Central Region of Ohio is ready to respond. Cooperative efforts with community, business, healthcare, security, and safety organizations have been enhanced to deal with any emergency. Agreements are developed with adjoining counties and healthcare organizations to strengthen the regional ability to provide mutual aid. We also perform simulated “Emergency Response” training exercises annually with our regional partners to prepare for an actual incident.

Reibold Building
117 South Main Street, Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm

Special Services

Birth and Death Records (Vital Statistics)
496-3114
The Office of Vital Statistics is dedicated to quality service. Certified birth records are available for persons born in the State of Ohio dating back to 1908. We issue certified death records for events occurring in Montgomery County, Ohio dating back to 1909. Records may be purchased in person, online, or over the phone. To ensure an accurate record request, you may call 496-3114 or visit our website at www.phdmc.org for questions, pricing and payment options.

117 South Main Street, Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm
Closed 3rd Wednesday: 8 am - 9 am

Communicable Disease Reporting
225-4508
The Communicable Disease Reporting Program monitors the occurrence of contagious illnesses within Montgomery County. The team gathers reports of diseases in the community, interviews people associated with the outbreak, and conducts follow-up investigations to determine the source of infection. Staff work closely with hospitals, physician offices, urgent care centers, schools and daycares in Montgomery County to help prevent and control the spread of diseases and protect the health of our community. The team makes recommendations for treatment and prevention, and educates the public about disease transmission by providing timely and accurate information to the community to avert outbreaks.

117 South Main Street, Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm
Public Information 225-5700

Public Information provides accurate, timely messages to the community so citizens can make informed decisions about health-related issues. The department communicates through the news media, print materials, the website (www.phdmc.org), and social media to make sure the community is informed, protected, and able to take advantage of Public Health’s programs and services. Information and Referral is a service provided to all residents of Montgomery County. The friendly and knowledgeable staff answer questions about the many programs and services, and will refer callers to outside agencies if they need additional help.

Reibold Building
117 South Main Street, Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm

Epidemiology 496-6533

Our epidemiologists monitor, identify, investigate and report emerging health threats that impact residents of Montgomery County. The team is responsible for publishing reports based on infectious and chronic diseases, as well as other health-related data. In addition, they provide education, information and training to coalitions, healthcare agencies, universities and the general public.

The epidemiology department also helps to track progress with the Community Health Improvement Plan’s three priorities: Birth Outcomes, Chronic Disease Prevention and Behavioral Health.

Monday - Friday: 8 am - 4:30 pm

See page 15 for programs/topics list.
Addiction Services
461-5223
Addiction Services provides innovative individualized outpatient alcohol, drug and gambling addiction treatment to Medicaid-eligible and uninsured Montgomery County adult residents. The goal is to assist in the recovery process from the devastating impact of active addiction. Screening and assessments, along with walk-in and scheduled appointments, are available for consumers. Outpatient clients participate in medication-assisted treatment (MAT), individual and group counseling, lecture and discussion groups, family counseling, case management and other support services. Clients are encouraged to participate in a variety of community support groups which include: Alcoholics Anonymous, Narcotics Anonymous, Gambler’s Anonymous and other recovery-based groups.

In addition, Addiction Services provides prevention services to Montgomery County parents of preschool children through parenting classes using the evidence-based practice of Strengthening Families. These classes can be delivered in the home, at the agency or on location in the community.

The prevention program also offers gambling prevention services for at-risk Montgomery County youth. The Risky Business program offers a six-session curriculum which deals with decision making in high risk situations. Its delivery can be adapted to meet the scheduling needs of agencies that request services.

Baby & Me - Tobacco Free
496-3376
The Baby & Me - Tobacco Free Program is a smoking cessation program whose aim is to reduce the use of tobacco products among women during and after pregnancy. Facilitators provide counseling support and resources that will encourage pregnant women to quit smoking and assist them in quitting and staying quit following delivery. Women who stay smoke free after their baby is born receive a monthly voucher for free diapers for up to 12 months.

For more information on the program or how to enroll visit: www.babyandmetobaccofree.org or call the Program Coordinator at (937) 496-3376.

Sunrise Center
1320 East Fifth Street, Dayton, Ohio 45402
Monday - Friday: 8 am - 4:30 pm

CarePoint
496-7133
As a component of our HIV Prevention Services, the Syringe Services Program, CarePoint, consists of various services to help those who inject drugs reduce the chances they will do additional harm to themselves and others. The program includes the exchange of used syringes for clean ones, referrals for substance abuse treatment, as well as other health and social services, condom distribution to prevent the spread of HIV and other STDs, assistance with Medicaid sign-up, free HIV testing and education, free pregnancy testing, free Hepatitis C testing, and information on gambling addiction.

Participants complete a one-time confidential questionnaire and are given a unique identification number. Then trained, professional staff offer various services including a one-to-one exchange of used syringes for clean ones. This program is intended to develop trust and rapport with those exchanging needles in order to encourage them to also take advantage of the other services being offered.

Creating Healthy Communities
225-7974
The Creating Healthy Communities Program aims to create healthy communities by reducing the rates of heart disease, stroke, cancer, diabetes and chronic lower respiratory disease among Dayton residents by addressing risk factors such as nutrition, physical activity and tobacco use. The program works with communities, schools, worksites, and healthcare professionals to create plans to reduce risk factors for chronic disease. We support policy changes that result in healthier food and vending choices, smoke-free spaces, safe walking routes, and increased physical activity throughout the community. We also provide education and resources for quitting smoking, weight management, and exercise programs.

117 South Main Street, Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm

Children with Special Healthcare Needs
225-6459
The Children with Special Healthcare Needs Program provides assistance and case management to children under the age of 21 who have specific health needs – primarily chronic illnesses. Nurses provide in-home assistance with connecting children to appropriate medical care, including needed diagnostic and treatment services. Participants must meet medical and financial eligibility criteria.

Job Center, Suite 309
1133 South Edwin C. Moses Blvd., Dayton, Ohio 45417
Monday - Friday: 8 am - 4:30 pm

Community Health Outreach
225-5700
The Community Health Outreach Program is comprised of a team of health professionals, including registered nurses and community health advocates. The staff focuses on providing health services to the community. Emphasis is placed on health promotion, prevention, and developing links to community resources through health screenings, education, and referrals for vulnerable populations. The screenings allow the person to seek medical follow-up when potential chronic problems are identified through the screening process. This program can assist in linking people with medical services, as well as with Medicaid enrollment for those who are uninsured.

Reibold Building
117 South Main Street, Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm

Communities Preventing Chronic Disease (CPCD)
496-3308
The CPCD Program is designed to promote healthy eating and active living among Montgomery County adults, especially those with high blood pressure and those at risk for type 2 diabetes. The goal of the grant is to reduce obesity, diabetes, heart disease, stroke, and health disparities. There is also a focus on using health information technology to link community and clinical resources to improve performance within healthcare systems.

Reibold Building
117 South Main Street, Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm
Diabetes Programs
(Prevention and Self-Management)
225-4189
Public Health offers two diabetes programs that serve the community. The Diabetes Self-Management Program, certified by the American Diabetes Association, provides persons 18 years or older who are living with diabetes the tools they need to successfully control their diabetes and prevent the complications of diabetes. The Diabetes Prevention Program is a year-long lifestyle change program in which people at risk for type 2 diabetes meet in a group with a trained Lifestyle Coach. The program is based on research, which shows that people at risk for type 2 diabetes can significantly reduce their risk by losing 7% of their body weight through healthy eating and physical activity.
Reibold Building
117 South Main Street, Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm

GetUp Montgomery County
496-3090
GetUp is a community-based initiative that works with schools, childcare centers, worksites and more to combat obesity and promote healthy lifestyle choices for children and families in Montgomery County. Public Health is encouraging everyone to do their part by choosing to live the “5-2-1-0” lifestyle every day:

- Eat 5 servings of fruits and vegetables
- Limit your leisure screen time to less than 2 hours (TV, video games, computer and texting)
- Get at least 1 hour of physical activity
- Drink no sugary beverages
Reibold Building
117 South Main Street, Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm
Healthy Mommy - Healthy Baby
496-7527
Healthy Mommy - Healthy Baby is a prenatal outreach home visiting program that works to reduce the number of low birth weight babies and infant deaths within the African American communities of Montgomery County.

The program is designed for low income, uninsured or underinsured women who may be at risk of having a poor birth outcome. Professional community health workers conduct regularly scheduled home visits; educating parents on prenatal and postpartum care, as well as toddler health and care through age one. There is also a specific component designed to educate fathers included in the program.

Dr. Charles R. Drew Health Center
1323 West Third Street, Dayton, OH 45402
Monday - Friday: 8 am - 4:30 pm

Home Care
225-4500
The Home Care Program is a Medicare certified program that provides skilled nursing, physical therapy, occupational therapy and speech therapy. Our focus for adults is to provide skilled home care services to those who are uninsured or underinsured.

Reibold Building
117 South Main Street, Dayton, OH 45422
Monday - Sunday: 8 am - 4:30 pm

HIV Intervention Services
225-4023
HIV Intervention Services offers client-centered HIV and Hepatitis C testing, counseling, and referral services. Clients can be tested in-house or on the Public Health Mobile Unit (PHMU). The PHMU is one of the most innovative ways of providing street-based testing and counseling services for hard to reach populations. Clients taking advantage of free testing on the PHMU can also receive condoms and other safer sex items, and various sources of health information. In addition to testing/counseling efforts, evidence-based HIV interventions are used to target specific groups, mainly populations of youth. Presentations/interventions on HIV/AIDS and other sexually transmitted diseases are facilitated in local schools, juvenile detention centers, youth-based organizations and venues of general populations.

Dr. Charles R. Drew Health Center
1323 West Third Street, Dayton, OH 45402
Monday - Friday: 8 am - 4:30 pm

HIV Outreach and Prevention
496-7133
The HIV/AIDS Prevention Program concentrates on reducing transmission of HIV in Montgomery County. This is facilitated by increasing the number of people who are aware of their HIV status, increasing community STD screenings and treatment per CDC guidance, increasing awareness and linkage to care, promoting health equities, community planning, increasing community and provider knowledge of HIV treatment, prevention, epidemiology, and effective policies.

The program offers:
- Free anonymous and confidential HIV testing and free confidential Hepatitis C testing
  - Uses the OraQuick Rapid test that provides results in just 20 minutes
- Free pregnancy testing
- Partner notification services
- HIV/STD evidence-based educational interventions
- Linkage to HIV care
- Mobile HIV counseling, testing and referral
- Distribution of safer sex kits
- Distribution of bleach kits
- Street based outreach
- State of Ohio HIV/STD Prevention Information

201 Riverside Drive
Dayton, Ohio 45405
Monday - Friday: 8 am - 4:30 pm
Immunization Action Program 496-7698
The Immunization Action Program is aimed at reducing or eliminating vaccine-preventable diseases in Montgomery County by evaluating and improving immunization rates in infants under the age of three. Services for providers include continuing education programs, monthly newsletters, a quality assurance program, and other educational materials. Providers or parents interested in more information or wanting to schedule a program should call 496-7698.
Reibold Building
117 South Main Street, Dayton, OH 45422
Monday - Friday: 7:30 am - 4 pm

Infant Mortality Ohio Equity Institute Team 496-7527
The Infant Mortality Program seeks to reduce the rate of deaths in babies younger than one in Montgomery County. The leading causes of infant death are premature births, sleep-related birth defects and other factors. Mothers can protect their babies by focusing on comprehensive prenatal and postnatal care. Two of the most successful strategies are a comprehensive Centering program and progesterone therapy. Mothers can call Public Health to be linked with services to help protect the health of their babies.
Sunrise Center
1320 E. Fifth Street, Dayton, Ohio 45402
Monday – Friday: 8:00 am – 4:30 pm

Immunization Clinic 225-4550
The Immunization Clinic reduces and eliminates the spread of vaccine preventable diseases by providing vaccination and education services. The Immunization Clinic provides routine vaccines for infants, children, teens, and adults. The clinic also provides vaccines for international travelers, those with occupational risk, medical indications, and for post-exposure disease control efforts.
Services are provided by appointment.
Reibold Building, 117 South Main St., Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm
NOTE: The clinic is closed daily from 11:30 am - 12:30 pm and the second and fourth Friday of every month from 8 am - 9 am.

Naloxone Distribution 496-7133
Public Health staff provide opioid overdose prevention education and distribution of home overdose reversal kits containing Narcan Nasal Spray (Naloxone) to individuals who complete an established training and who are at-risk for opioid overdose. Family members, friends or other persons in a position to assist a person at risk of experiencing an opioid-related overdose (according to established program criteria) are also eligible.
Life Enrichment Center, 425 North Findlay Street, Dayton, OH 45404
Fridays: 9:00 am - 3:30 pm

Pediatric Physical Therapy 225-4500
The Pediatric Physical Therapy program serves children from birth to 36 months. The program provides physical therapy services for infants and toddlers with diagnosed and potential developmental disorders. The Physical Therapist coordinates care with Help Me Grow/Brighter Futures and assists in the administration of standardized assessments to establish program eligibility as needed.
Reibold Building, 117 South Main St., Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm
School Health Services
225-4514
Public Health's School Health Services are provided to private, parochial and charter schools in Montgomery County. Schools may contract for a school nurse on a part-time or full-time basis or one-time only to perform mandatory screenings. Schools rely upon School Health Services to provide a registered nurse who specializes in the field of school nursing. In addition to a nursing license issued by the Ohio Board of Nursing, a nurse providing services to schools must be licensed by the Ohio Department of Education.
Reibold Building
117 South Main Street, Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm

Sexually Transmitted Disease (STD) Clinic
225-4550
Public Health’s Sexually Transmitted Disease (STD) Clinic provides patient evaluation, laboratory testing and treatment of sexually transmitted diseases. HIV testing, including rapid testing, is also available. The Public Health STD Lab supports the clinic by providing quick testing results. Since STDs are preventable and many can be easily treated or cured, Public Health provides educational materials about STD transmission, prevention, and treatment to all Montgomery County residents.
Reibold Building
117 South Main Street, Dayton, OH 45422
Monday - Friday: 8:00 am - 4:30 pm
*Closed for lunch 11:30 am - 12:30 pm

Refugee Program
225-4398
Refugees are people who fear being persecuted and escape or are forced to leave their country. Catholic Social Services, Ohio Department of Job & Family Services, and Public Health work closely to assure the best services are given to each refugee. Public Health screens refugees within 30 - 90 days of arrival to help identify any medical barriers and treat any immediate health issues. During the screening, the refugees watch a DVD, in their language, that helps introduce them to the U.S. health care system.
Reibold Building, 117 South Main Street, Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm

Tobacco Cessation and Prevention
225-4398
The Tobacco Program strives to improve the health of Montgomery County by reducing tobacco use among youth and adults. Our comprehensive approach includes education about tobacco prevention and smoking cessation.
Reibold Building
117 South Main Street, Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm

Tuberculosis (TB) Clinic
225-4550
The Tuberculosis (TB) Program controls the spread of TB in Montgomery County. We ensure all persons with active TB are completely treated. We work with community partners to screen individuals who are at high risk, including contacts with active TB cases, substance abusers, homeless persons, those who test positive for HIV, those in correctional facilities, and those who come from countries with a high incidence of TB. TB skin tests are provided by appointment on Mondays, Tuesday afternoons, Wednesdays, and Fridays.
To schedule an appointment for an evaluation of a positive result, contact the TB Clinic Nurse during normal business hours at 496-6891. The TB Program serves as a resource for community-based health care providers seeking information on screening, diagnosing, and treating TB.
Reibold Building
117 South Main Street, Dayton, OH 45422
Monday - Friday: 8:00 am - 4:30 pm
*Closed for lunch 11:30 am - 12:30 pm
Violence Prevention
225-5025
Our Violence Prevention Program teaches residents how to settle conflicts peacefully. Our staff makes presentations in schools, correctional facilities, and various organizations throughout the community. By raising awareness and promoting nonviolence, we are making Montgomery County a safer place to live. We work with any type of organization and counsel individuals in a group setting.
Reibold Building
117 South Main Street, Dayton, OH 45422
Monday - Friday: 8 am - 4:30 pm

Women, Infants, and Children (WIC)
The Special Supplemental Nutrition Program for Women, Infants and Children (WIC) serves families by providing nutrition education, supplemental foods, breastfeeding education and support, and referrals to health care and social services agencies. Highly nutritious foods like milk, eggs, fruits, vegetables, whole grains, peanut butter, beans, 100% juice and infant formula and baby foods are purchased at local contracted grocery stores with a WIC nutrition card that works like a debit/credit card with a chip. Each clinic employs lactation consultants and breastfeeding peer helpers to assist women in meeting their breastfeeding goals. WIC participation is based on income eligibility (185% of the federal poverty level) and nutrition risk as determined by a nutrition professional. Pregnant women, new mothers, breastfeeding mothers, and infants and children up to age five are eligible.

Hours at all WIC Center locations are as follows:
Monday - Thursday: 8:15 am - 3:00 pm
Friday: 8:15 am - 11:00 am

Locations:
Sunrise WIC

Featuring the movie: RACE
**Body Art and Tattoo Inspection**

**225-4460**

Public Health licenses and inspects body art establishments including tattoo and body piercing facilities within the county to ensure compliance with state and local regulations. Inspectors verify requirements for operator and artist training along with the use of equipment to eliminate the potential for bloodborne disease transmission. In addition, all complaints of unlicensed tattoo artists operating out of homes are investigated. “Online Inspection Reports” are available at www.phdmc.org.

**Campground Inspection**

**225-4460**

The Campground Program provides licensing and inspections of all campgrounds within Montgomery County. Inspections ensure general environmental health concerns are met such as spacing, protection of water connections, and adequate facilities for sewage disposal. “Online Inspection Reports” are available at www.phdmc.org.

**Childhood Lead Poisoning Prevention**

**225-5553**

Public Health partners with the Ohio Healthy Homes and Lead Poisoning Prevention Program (OHHLPPP) to provide public education, public health lead investigations, and case management to lead-poisoned children in Montgomery County. The program specifically addresses the needs of lead-poisoned children from birth through 72 months of age. OHHLPPP receives all blood lead laboratory reports on Ohio resident children and refers cases of lead-poisoned children in Montgomery County to Public Health for lead hazard investigation and case management. The program assists family members, medical care providers and other community members to reduce and prevent lead poisoning.
Mosquito and Vector Control 225-4362

The Mosquito Control Program protects Montgomery County from mosquito-borne diseases through regular trapping and species identification. The local mosquito and tick populations are monitored, tested, and controlled. If samples test positive for disease, Public Health notifies residents in the immediate area of the findings and provides education on how the residents can protect themselves.

Prevent ZIKA Virus

Avoid Mosquitoes
Remove Standing Water
Practice Safe Sex

Food Protection & Food Service Inspection 225-4460

The Food Protection Program oversees the licensing and inspection of all restaurants, grocery stores, vending machines, mobile food operations, and temporary food operations. Sanitarians inspect licensed food service operations and retail food establishments for proper food storage, handling, preparation and serving. Depending on the type of facility, inspections occur from one to four times per year, not including complaints and follow-up inspections. We conduct reviews of all new and remodeled facilities within Montgomery County. “Online Inspection Reports” are available at www.phdmc.org. Anyone planning to begin construction of a new restaurant or grocery must submit plans to Public Health for the work to be completed. Plans are also required for any substantial alterations. Public Health works hand in hand with local building and other inspection authorities to ensure that all applicable code requirements for facilities and equipment are met. Public Health offers “Level 1 Food Safety” training on a monthly basis in the Reibold Building.

Hotel and Motel Inspection 225-4460

The Hotel and Motel Program provides the licensing and inspection of all Montgomery County hotels and motels along with other facilities used by transient guests for sleeping. Public Health licenses over 6,500 rooms to ensure that all visitors will have a safe and sanitary accommodation, free of nuisance conditions. “Online Inspection Reports” are available at www.phdmc.org. Anyone planning to begin construction of a new hotel or motel must submit plans to Public Health. Public Health works hand in hand with local building and other inspection authorities to ensure that all applicable code requirements for facilities are met.
Nuisance Abatement
225-4362
The Nuisance Abatement Program investigates complaints about trash, rodents, and gross unsanitary conditions at commercial properties county-wide and at residential properties in unincorporated areas of Montgomery County.

Plumbing Inspection
225-4421
The Plumbing Inspection Program ensures that all plumbing installed during construction of a new or renovated building is installed under permit by knowledgeable craftsmen in accordance with applicable codes. Properly installed plumbing systems protect the public’s health by preventing bacterial or chemical contamination of the public water supply caused by accidental backflow as well as by preventing exposure to discharge from improperly installed wastewater drainage systems.

The plumbing program is responsible for on-premise sewer and water systems in many areas of the county. We provide oversight of the installation of plumbing systems in all areas of Montgomery County except for the cities of Centerville, Dayton, Oakwood and Kettering. Plumbing contractors and in limited cases, homeowners, may apply for permits to install plumbing systems in new or remodeled construction. We typically respond to inspection requests within 24 hours. Plumbing contractors who have work inspected by Public Health must be registered with Public Health. Plumbing system plan approval is required for new or substantially altered commercial work, including multiunit apartments.

Private Water and Sewage Treatment
225-4428
The Private Water System and Household Sewage Treatment System Program ensures that septic systems and private wells are designed and installed under permit and in accordance with state and local regulations. Public Health also investigates sewage nuisance complaints and consults with homeowners on replacing their septic systems.

Rabies Control
225-4362
The Rabies Control Program quarantines dogs, cats, and ferrets involved in biting incidents to ensure that the animal did not transmit rabies to the victim. Biting animals are not released from quarantine until we receive proof of rabies vaccination from a veterinarian facility registered with Public Health. Local regulations require that all dogs, cats and ferrets be vaccinated for rabies. Laboratory tests of wild animals are also conducted when necessary.

Regional Air Pollution Control Agency (RAPCA)
225-4435
The Regional Air Pollution Control Agency (RAPCA) covers Clark, Darke, Greene, Miami, Montgomery, and Preble counties. We work through local health departments to protect citizens from the adverse effects of air pollution. RAPCA implements and enforces federal, state, and local air pollution control regulations and implements the state’s industrial permit system. Our programs and services include: air quality monitoring, air pollution forecasting, pollen and mold reports, field work and complaint investigation, facility inspection, and industrial permits. We regulate removal of asbestos during building renovation and demolition.

More information is available at www.rapca.org.
School Inspections
225-4460

The School Inspection Program helps schools identify conditions that may harm the health of students, school staff, and building occupants. Inspections include all areas of the school building and grounds, including environmental concerns, food service, playground safety, swimming pools, and indoor air quality. “Online Inspection Reports” are available at www.phdmc.org.

Smoke-Free Workplace
225-4460

Ohio’s Smoke-Free Workplace Program ensures that all work environments in the state are completely smoke-free. Public Health responds to complaints regarding smoking in any workplace in the county. We work with business owners to ensure compliance and to protect employees and patrons from the health hazards of secondhand smoke. Please call 1-800-559-OHIO (6446) to report complaints.

Solid and Infectious Waste
225-4362

The Solid and Infectious Waste Program ensures that waste materials are disposed of in compliance with state regulations and in a manner that protects the public’s health and the environment. Staff regularly inspects all municipal solid waste landfills, transfer stations, compost operations, scrap tire businesses, and construction and demolition debris disposal facilities. Open dumping sites are monitored and complaints are investigated. We sample selected private wells near disposal sites to monitor ground water quality. We also investigate reports of open dumping.

Source Water Protection
225-4362

The Source Water Protection Program (formerly Well Field Protection) reduces risks to the public water supply by regulating the quantity and use of chemicals by businesses located in the Multi-Jurisdictional Source Water Protection Area, which encompasses Dayton, Harrison Township, Riverside, Vandalia, Huber Heights, and Wright-Patterson Air Force Base. This is accomplished through chemical inventory reviews, periodic facility inspections, and financial incentives to businesses. Public Health staff also provides technical assistance to officials of Harrison Township, the cities of Riverside, Vandalia, and Huber Heights. The City of Dayton operates a parallel program within the Dayton corporation limits.

Swimming Pool Inspection
225-4460

The Swimming Pool and Spa Program consists of licensing and inspecting all public and municipal swimming pools, whirlpools, and special use pools within the county. We inspect design, operation, safety, and maintenance items, as well as water quality parameters of clarity, alkalinity, chlorine levels, and overall pH. “Online Inspection Reports” are available at www.phdmc.org.
At Public Health - Dayton & Montgomery County, we work to provide accurate and timely health information to the public so they can make important decisions to protect their family, friends and neighbors. It is in that spirit that we offer presentations on many of our programs that can be tailored to meet the specific needs of your business, group, or organization. We are here to serve you and we look forward to partnering with you to improve the health of our community. Call us at 937-225-5700 to discuss your needs and to schedule a presentation.

All of Public Health's programs and services are provided to Montgomery County residents with considerate, responsive, and culturally-competent care. If you do not speak English, or if you are hearing-impaired or sight-impaired, Public Health will provide a free interpreter for all necessary appointments and client interactions. Also much of the content provided on our website [www.phdmc.org](http://www.phdmc.org) is accessible in multiple languages. All clients have the right to reasonable resources to facilitate effective communications. For more information or to request any of these services, please call (937) 225-5700.
MISSION

Our mission is to lead and innovate by working with our community to achieve the goals of public health: prevention, promotion and protection.

VISION

Our vision is to be an innovative leader in achieving the highest possible health and well-being for Dayton and Montgomery County residents and visitors. To that end, we provide vital, cost-effective and culturally-competent health services that protect and promote people’s health and support and create healthy environments and communities.

*Through our services, we:*

- Prevent the spread of disease.
- Protect against health threats in air, food and water.
- Promote healthy behaviors.
- Reach out to vulnerable populations, linking or providing direct services.
- Mobilize community action through partnerships.
- Prepare for and respond to public health emergencies.
- Serve as a public health information resource.
