When to use a mask

1. If you are healthy, you only need to wear a mask if you are taking care of a person with suspected 2019-nCoV infection.

2. Wear a mask if you are coughing or sneezing.

3. Masks are effective only when used in combination with frequent hand-washing with alcohol-based hand rub or soap and water.

4. If you wear a mask then you must know how to use it and dispose of it properly.
