Public Health recommends that you do not host or attend Thanksgiving gatherings.

Preparing traditional family recipes for family and neighbors, especially those at higher risk of severe illness from COVID-19, and delivering them in a way that doesn’t involve contact with others.

Having a virtual dinner and sharing recipes with friends and family.

Watching sports events, parades, and movies from home.

Having a small dinner with only people who live in your household.

Shopping online rather than in person on the day after Thanksgiving or the next Monday.
